

REMARKS

The present requested change to the first line of Claim 1 is presented for purposes of accuracy. In the case where the product is first offered for sale the combined light fixture/ water return fitting will be packaged for sale, being submersible, but not submerged.

In the event that the Examiner does not see fit to allow this change, it is requested that the word "submerged" be deleted from line 1 of Claim 1.

Consideration of this Claim 1, together with claims 2 through 11 as submitted on Feb 23, 2006, with a view to their allowance is requested.

Respectfully submitted.

Douglas W. Eggins Patent Agent
Regn.No. 21,175
